

CG GEL C

TECHNICAL INFORMATION

CG GEL C is a gel/grease to reduce the friction between rubber or plastic surface. The lubricants effect still on surface for many times, and does not make the glue effect. CG GEL C does not contain any oil or petrol derivate.

Use. Apply the product on the surface, by sponge , brush or by pump, to lubricant and proceed at the application.

Due to many kinds of plastic and rubber, test the product on the surface.

CG GEL C is a non-toxic, inert, non-flammable product.

TECHNICAL SPECIFICATIONS

Appearance:	clear blu grease/blu grease
Odor	none
Viscosity	approx. 2,0 M cps \pm 100.000
Specific gravity	0,97 gr/cm ³
Use temperature	-20°C ÷ +80°C
Toxicity	non-toxic
pH	n. a.
Solubility in water:	not in water but in lipid fluid.

PACKAGING:

Cod VCGGELC21	plastic pail of 21 kg
Cod VCGGELC50	metal drums of 50 kg
Cod VCGGELC200	metal drums of 200 kg
