

Hand Wash Gel

Data sheet

Hand Wash Gel is a registered cosmetic product, throughout the EU, without fragrance and with a cleansing and sanitizing effect

Hand Wash Gel allows you to clean, cleanse and sanitize your hands when water is not available. Once the product has dried it does not dry out the skin.

Use:

Apply a hazelnut of product on the palm of the hand and rub them together, turning between the back and palm and in the middle of the fingers.

In about 30 seconds, the product dries leaving your hands clean, sanitized and with soft skin.

Excellent also on dirty hands even with greasy. In this case, after pouring a nut of product and rubbing your hands, use a cloth to dry and permanently remove the dirt.

External use:

Use on intact skin. Keep out of the reach of children and away from heat sources or flames. Do not swallow. In case of contact with eyes, rinse thoroughly with water.

Technical features:

Appearance: translucent transparent gel
