

# SPRAY PRODUCTS

## TECHNICAL INFORMATION

CARIMA Company realized some spray product to solve problems in electrician sector. These products are used during usual work procedures from technicians and electricians, giving them a useful support in every situation. These products are:

- |        |               |                                       |
|--------|---------------|---------------------------------------|
| ➤ Code | VLUBRY400     | Gliss® Spray                          |
| ➤ Code | VCLINER400    | Cliner Spray                          |
| ➤ Code | VSBLOC400     | Unblocking Spray                      |
| ➤ Code | VARIACOMP 400 | Compressed Air                        |
| ➤ Code | VRIVFUGHE400  | Gas leak detector                     |
| ➤ Code | VIGIENIZ400   | Sanitizing agent for air conditioners |

### Gliss Spray

Universal lubricant, it lubricates, protect and waterproof. It removes humidity in electrical and electronic equipment, engines, electric contacts, etc.. It prevents from the formation of rust and corrosion thanks to lubricant and protective properties. This lubricant is based on silicon oil.

### Cliner Spray

Lubricant detergent for electric contacts. It removes completely and quickly grease, oil, dirt, pitch, wax, labels and oily deposits from **electrical** equipment. It doesn't damage metals, rubber, plastic materials, glass and paints. It evaporates quickly without any deposit. It lubricates and protects treated surfaces.

### Unblocking Spray

It dissolves rust from oxidized metallic materials. It unblocks screws, nuts, bolts and locks.

### Compressed Air

It produces a high pression jet of air. It removes quickly dusts and residues from interspaces and every space difficult to reach. It can be used in electric and electronic sector for the cleaning of computers and little electric household appliances.

### **Sanitizing agent for air conditioners**

The product has been conceived to deodorise and sanitise. Perfectly suitable to remove mould, fungi, bacteria and germs from filters, ducts and finned packs. It can prevent any allergy disorder by removing bacteria and micro-organisms. It is neither toxic nor corrosive and it can not bleach any treated part. It can be used for preserving fixed installations and cars.

### **Gas leak detector**

GAS LEAK detector is a product specially created for detecting possible leaks and micro leaks in gas equipment. GAS LEAK detector is suitable for oxygen, hydrogen, air, helium, nitrogen, argon, chlorine, household gas, methane, carbon anhydride, ethylene oxide, methylene oxide. GAS LEAK detector is an inert product, it does not soil, it does not stain it does not cause oxidation or rust. It is non-flammable. GAS LEAK detector also performs a degreasing action allowing to check also dirty spots such as threading or weld beads.

### **PACKAGING**

**All products are in containers of 400 ml in cardboard boxes of 12 pieces.**
